STC EXPERT COMPANY PRESENTATION

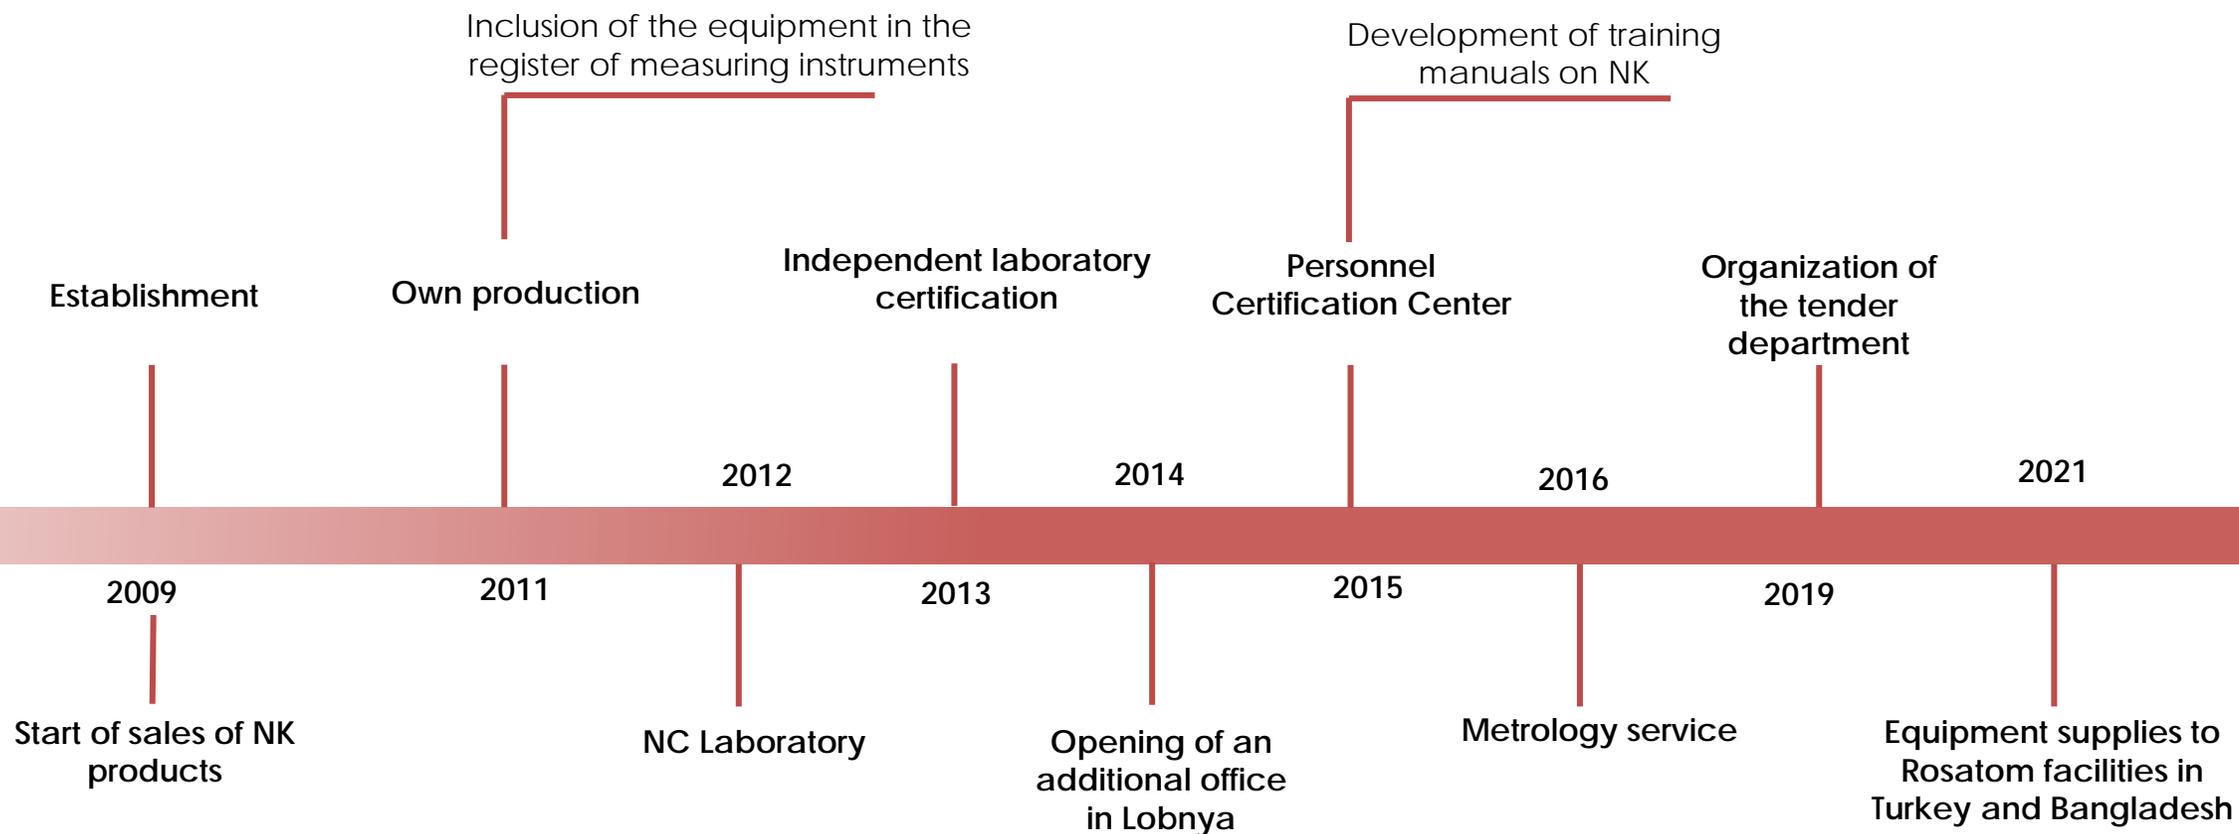

COMPANY GOALS

- The aim of the company is to provide a full range of non-destructive testing services from equipment supply, personnel training, metrology to laboratory certification.
- The principle of our development is the desire to work independently on the main activities in the field of NDT and development of our own brands.

STC EXPERT TODAY:

- Independent body for certification of NK laboratories (NOAL)
- The examination center for certification of NDT personnel
- NDT production
- Supplies of equipment, instruments and consumables for nondestructive testing
- Services of non-destructive testing laboratory
- Metrological service

DEVELOPMENT STAGES

CERTIFICATES OF ACTIVITY

Independent laboratory certification

Personnel Certification Examination Center

Laboratory of non-destructive testing

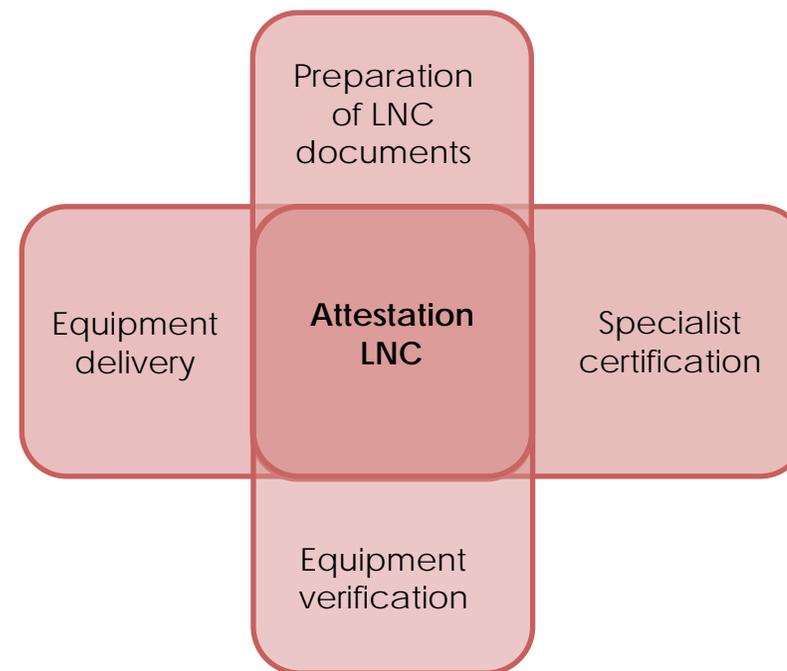

Own production of non-destructive testing equipment

Metrology service

INDEPENDENT LABORATORY CERTIFICATION

- Our company performs the whole range of works related to the creation and certification of testing laboratories
- Attestation is conducted in accordance with SDANK-01-2020 and FNP NC No. 478.

COOPERATION WITH CERTIFIED LABORATORIES

A Telegram channel was created for cooperation with NK laboratories, which were previously certified.

- In the channel we put requests for services for nondestructive testing, which we can not work out on their own and are ready to hand over to our laboratories.
- Group members can post information about looking for co-creators in the chat room.
- We place useful news of Russian and foreign resources, changes in legislation in the field of taxation, ads for the purchase and sale of equipment, videos and other useful information.
- [Telegram >>>](#)

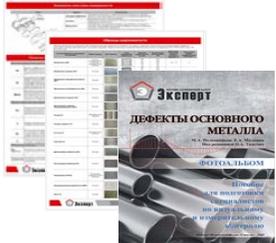

PERSONNEL CERTIFICATION EXAM CENTER

- STC "Expert" is an examination center of the Independent Personnel Certification Body LLC NTC "Quality".
- Certification is conducted in accordance with the rules on certification of personnel in the field of nondestructive testing SDANK-02-2020.
- Partnerships with leading certification centers allow for rapid certification in the required field of NC

OWN PRODUCTION OF NON-DESTRUCTIVE TESTING EQUIPMENT

Equipment, including in the register of measuring instruments

	VIC kits		Measuring tools
	The tightness control unit and vacuum frames		Foam indicator PPI-1
	Gel for ultrasonic inspection "Signal-1"		Study materials

NON-DESTRUCTIVE TESTING LABORATORY

- Non-destructive testing is carried out in accordance with the order and requirements of regulations and technical documentation.
- A separate control scheme is developed for each of our facilities, based on an analysis of the governing documents and features of the QA itself.
- Complex work is possible, which includes monitoring together with the development of techniques and coordination of flow charts.

METROLOGY SERVICE

Metrological service of STC "Expert" is accredited for the right of calibration of linear and angular measuring instruments, including:

- VIC kits
- linear-angular measuring tool
- welding jigs
- measuring glasses
- roughness specimens
- control samples for capillary and magnetic particle testing

Partner relations with leading metrological centers provide an opportunity of operative certification of testing instruments practically according to any method of control.
